# Why use Arty Network as a platform?

Because we want to give you more visibility and create opportunities that can change your life and help others by our philanthropic action.

# Connect

with other creatives, brands and clients. Exhibit your creations, sell your products and services online or at our events.

# Arty Network Core Values

- + We create a space for constant creativity
- + We have a strong will to offer exposure for creatives
- + By being a part of Arty Network, you're also helping children to have access to schooling
- + Same chances for everyone to build a network.

# Target Market

Arty Network Care  
philanthropic action

# PROBLEMS

## **Problem 1**

Creatives don't always have confidence, visibility and credibility at the beginning of their career

## **Problem 2**

Getting exposure and building a network by using multiple tools can be expensive and time wasting.

## **Problem 3**

What if making your business grow can have a positive impact on other people's life?

# SOLUTIONS

## Problem 1

The app will give you more visibility to clients, other creatives and companies by making you internationally geolocatable. Display your skills on your profile, share some backstages of your everyday work, sell and get reviewed.

## Problem 2

The app is a social network, a marketplace and a portfolio at the same time. One app for all your goals.

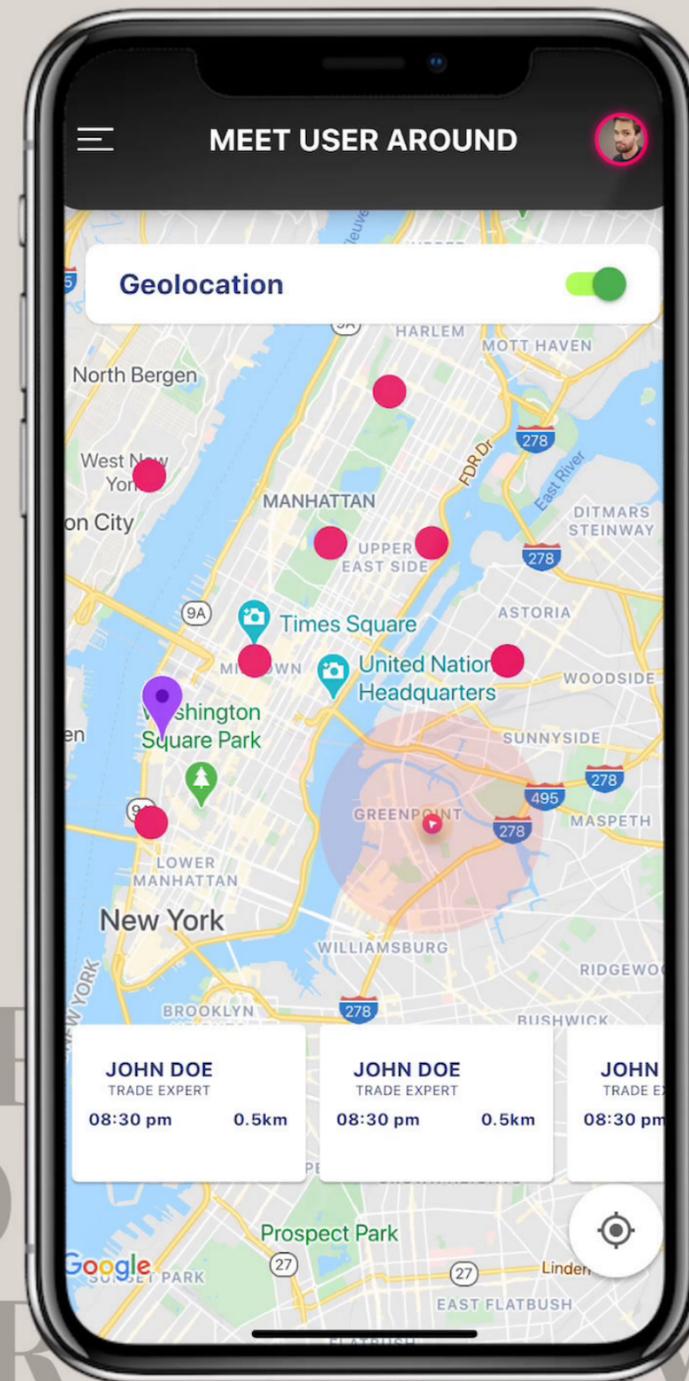

## Problem 3

Everything you will sell will help kids all over the world to access school and maybe later having the same chances as you to share and live of their passion.

Within the Arty Network App, a map will show you every event happening around you.

Online interactions are just the beginning; we want to go further.

Wherever you are, you can see when an other user is near you as well, and make your community grow by meeting them!

# GEOLOCATION

10

With our care program you can sponsor kids from Madagascar and Pakistan in order to give them access to education.

This help will be done in all transparency and you'll be able to follow kids all along the process by staying in touch with them and the family.

**5% on every product/service you will sell or buy on our app will be dedicated to ARTY NETWORK CARE 's actions.** Helping children going to school is our priority.

# BIO

At 20 our founder was working as a photographer and online editor while studying law, art and medias. She realized how difficult it was to connect with fashion and brands if you don't already know Someone and worst if you are not confident or shy.

At 21 she launched an online magazine that she designed and was managing a team of 20 creatives. The main goal was to give them the opportunity to collaborate together; photographers with webdesigners, editors with translators, stylists with brands and bloggers etc... in order to create more visibility, credibility, build a network and more opportunities. But she had to stop to focus on her degree.

At 24 Anne start studying and working in IT. What she loved the most was creating designs for websites and mobile apps. She launched the platform Arty Network at the same time as working as an elopement photographer, baker and IT project Manager.

At the end of 2018 she organized 2 first events to promote artists and to speak about philanthropic actions.

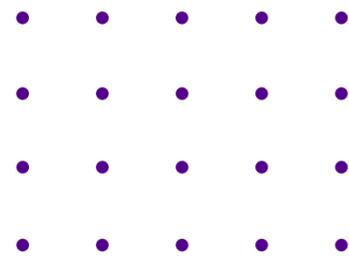

We are in 2020 and all that she wants for her 27 is to launched the Arty Network App. The idea is more mature and complete than in the beginning of this story. It is time for you to find out what we can offer.

Woodcrafter based in Paris.

## Cari Q

Singer & songwriter from Austin Texas.

# WHERE TO DOWNLOAD

## The Arty Network App

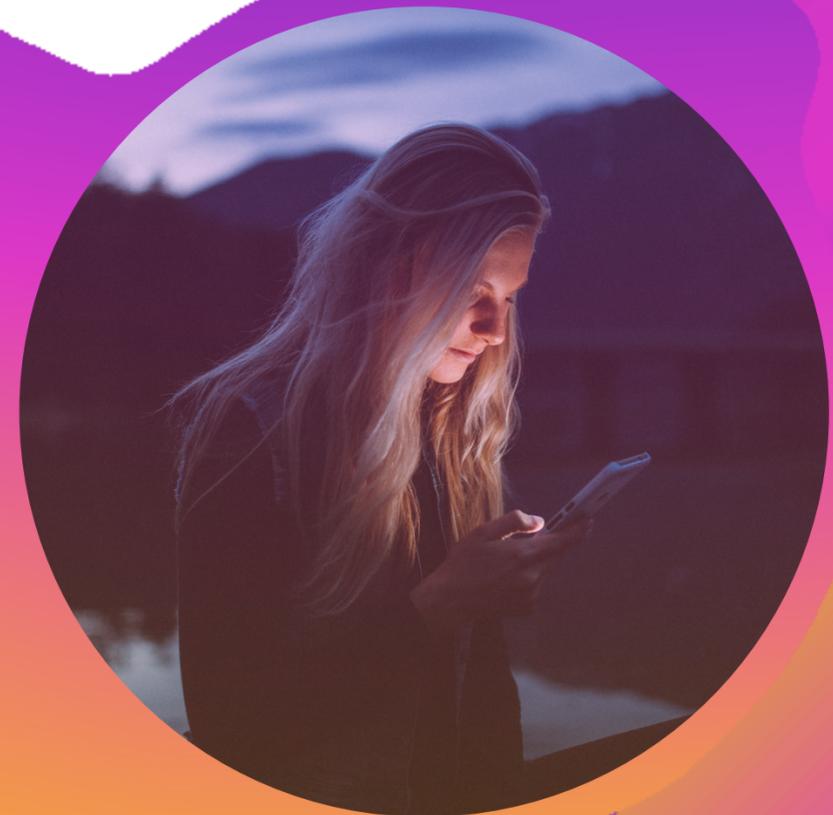

will be available for

**iOS & Android**

On

**Play Store & App Store**

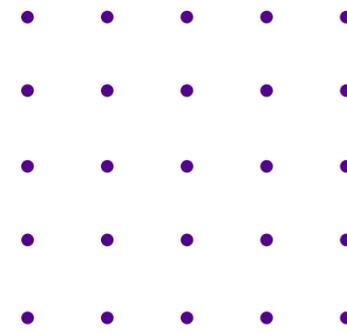

19

# FREEMIUM APPLICATION

Downloading and using all the major functionalities of the app is **free**:

- create your **profile**
- create **professional group**
- create **private group**
- create a private and unpaid event
- sell and buy (commission of 15% will be taken and **1/3 of it will be used to serve Arty Network Care philanthropic actions**)
- **geolocate people** on the map; connect, speak, meet them.
- doing **partnership**

# PREMIUM

Some options need **subscriptions** or one time purchase:

- create a **public event** that can be find on map
- create a **paid event** if you want to sell tickets
- **geolocate events** around you on map
- publish an **add** that will appear on banners of the App
- create **skills stories** to share with others your everyday life activity and some backstages of your creative process.

ARTY NETWORK CARE

At young age, kids in countries like Pakistan and Madagascar are more independent and resourceful than in other developed countries. They do a lot by themselves, are ready to face difficulties and hard realities, they work, they do duties and take care of their younger siblings. They are smarter and stronger. They deserve at least the same chances as other kids, to learn, grow and invest in a better life / future. That is why we want to help them.

We are explaining more about our action on previous instagram posts:  
<https://lnkd.in/dTidjgG>

# ARTY NETWORK CARE

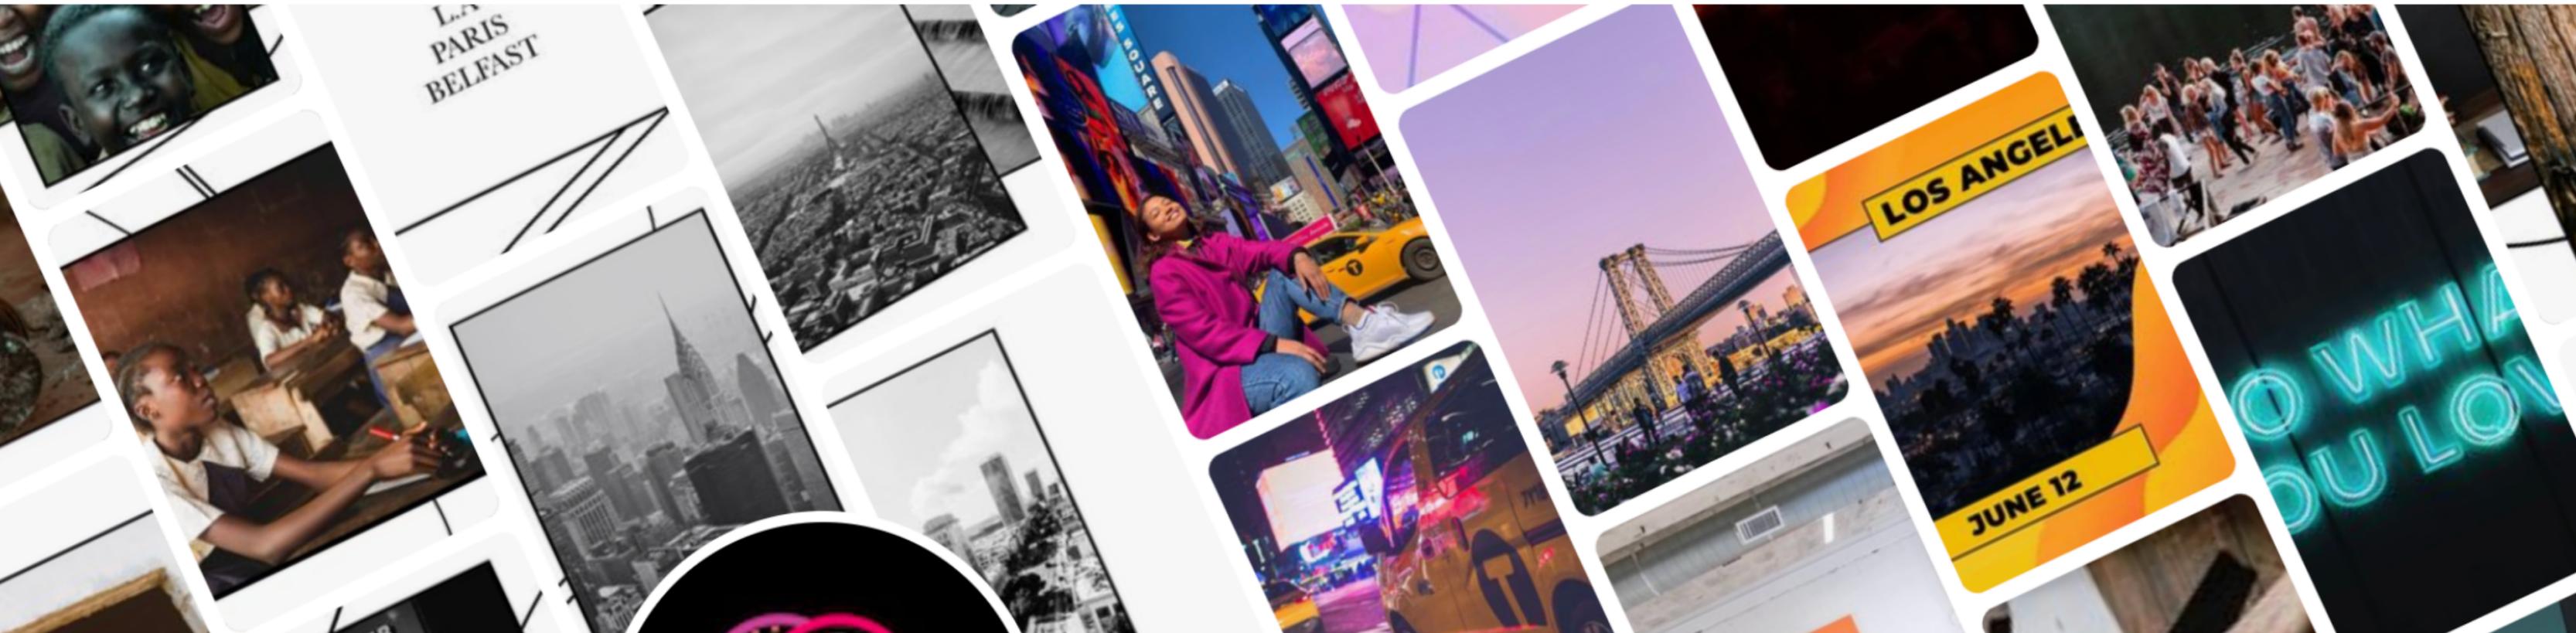

Is a french association (law of 1901) created at the end of 2018.

With our care program you can sponsor kids from Madagascar and Pakistan in order to give them access to education.

At young age, children in countries like Pakistan and Madagascar are more independent and resourceful than in other developed countries. They do a lot by themselves, are ready to face difficulties and hard realities, they work, they do duties and take care of their younger siblings. They are smarter and stronger. They deserve at least equal opportunities as other kids, to learn, grow and invest in a better life / future. That is why we want to help them.

This help will be done in all transparency and you'll be able to follow kids all along the process by staying in touch with them and the family.

5% on every product/service you will sell or buy on our app will be dedicated to ARTY NETWORK CARE 's actions. So 1/3 of our commission. Helping children going to school is our priority.

## Hire & Promote

[More details →](#)

# *Creatives*

Connect with other creatives, put yourself forward, exhibit your creations, sell your products and services online or at our events.

It is important for us that you feel fulfilled in the exercise of your art, unique but belonging to a community that will appreciate you at your true value, curious - always - inspired and expressive. That's why we give you the opportunity to create a community that shares the same interests as you; composed of creatives who excels in activities complementary to the development of yours.

We want to highlight your skills, give you more visibility and credibility:

- by allowing you to create events around your passion
- by showing your creations during our international events
- by dedicating talking about you in our online magazine highlighting your passion and your projects.

We want to help you getting more collaborations or sales opportunities:

- We offer you to sell your products or services on our market place only dedicated to creatives or during our showroom events
- you can also directly answer to job offers posted by companies, individuals or other creatives of the platform.

Here, we value exchange, mutual aid and promotion of your passion.

It is for this same reason that 1/3 of the commission we take from your selling will go towards Arty Network Care actions.

# *Individuals*

Sponsor and find the perfect talent for your personal project

At Arty Network, individuals have an important place.

As an individual, you can first highlight the talent of one of your relations by letting him discover the application. Does your sister makes pottery, your neighbor is passionate about photography or your colleague has just launched his small brand? Whether they are graphic designers, graffiti artists, painters or even web designers ... if they are joining the app on your behalf you will directly get advantages for our next events or on our premium options.

Second, if you are looking for a creative for a particular project or occasion; you are in the perfect place. Photographer, graphic designer, jewelry designer or make-up artist, you will inevitably find the talent you need with us!

So what are you waiting for to join our community and why not become the best sponsor of the application?

# *Companies*

Hire, develop your network and become an ambassador company

Joining the Arty Network community as a company means having the opportunity to develop privileged relationships with artists from different backgrounds and being able to call on the ideal creative (s) depending on the nature of your projects.

In other words, you can post job opportunities on our mobile application and creatives can apply there directly OR you can simply contact the talent that interests you via our application by having previously consulted their portfolio profile.

Beyond simple virtual exchanges, we attach great importance to real life meetings and to do this we offer you during our quarterly events occasion to meet our talents to discover their work around paintings / photos / videos exhibitions / sculptures, creative workshops or creative showrooms.

As a company you can also organize your own events.

By joining us, you become an ambassador of Arty Network and you will be an exclusive contact for all our creatives.

## DINA

"I choosed to work with Arty Network because I found its' concept innovative. Today networking is more than necessary to move forward in our projects. Meeting and discussing with creative and innovative people pushes us even more to surpass ourselves and innovate."

Could you introduce yourself in a few words?  
Where are you from ?

My name is Dina and I am 28 years old, and I'm from the region of Paris. After having traveled the roads of Canada for a year, I've decided, for my return in France in September 2020, to try a new adventure : entrepreneurship.

Could you explain to us how you shaped your career et how did you come up with the wedding design idea ?

After studying in a business school and a diploma in heritage management, I worked for a few years in the banking industry before realizing that working in a very supervised sector no longer suited me.

After a year spent abroad, I knew that I wanted to change my professional path and get into entrepreneurship. In which field ? That was the big question.

Then in September 2019, the click happen at the wedding of a friend where I was dazzled by the decoration of her wedding.

I inquired about the procedures and outlets of the designer profession and it is from this moment that I trained in the profession.

**How, when, and why have you started your activity ?**

I started in September 2019 .

**What is your creative process ? How do you build your projects? Can you tell us about it in a few words ?**

Before establishing a quotation, I make a discovery call with the prospects in order to get a first idea of their project and see if the feeling goes well.

Once my quotation and the inspiration board have been sent, I give them 1 week to get back to me.

For my professional network, I first look for marriage providers who have the same target clientele as me, ie mixed and multicultural marriages, and if we also have the same vision of marriage and work as well.

**What is your main inspiration ?**

My main inspirations are travels, cinema and art.

Do you have any collaboration ideas with other type of artists/creators that could give another dimension to your project ? If yes, what kind of artists/entrepreneurs ?

At the moment, I am organizing a wedding shoot in order to obtain content for my different platforms (social networks, website). To achieve this shoot, I collaborated with many wedding providers: caterer, wedding dress designers, stationery, tableware rental, florist, makeup artist ... I am not limited to the the wedding area, I can also sublimate and decorate all types of professional or private events such as baptisms, baby-showers, galas, company seminars.

**Why did you choose to be an Arty Network Ambassador ?**

I chose to work with Arty Network because I found its concept innovative. Today networking is more than necessary to move forward in our projects. Meeting and discussing with creative and innovative people pushes us even more to surpass ourselves and innovate.

As the saying goes: alone we go faster, together we go further

**What is the perspective of this project ?**

## Why did you choose to be an Arty Network Ambassador ?

I chose to work with Arty Network because I found its concept innovative. Today networking is more than necessary to move forward in our projects. Meeting and discussing with creative and innovative people pushes us even more to surpass ourselves and innovate.

As the saying goes: alone we go faster, together we go further

## What is the perspective of this project ?

## What would you seek for your own creation & work ?

In the future, I would like my business to grow, to have a permanent team of 3/4 people to help me with my events.

Finally I want to turn to an international clientele

**RYM**

"I'd love for the community aspect of this project to grow, this is what attracts me the most : exchanging, sharing, building with others. Thus, I hope I'll touch people with my art, now that I'm launching my business, with the help of Arty Network ! "

**Could you introduce yourself in a few words?  
Where are you from ?**

My name is Rym, I'm 28 and I was born in Algiers. I lived in Lyon for 10 years and I've been living in Paris for 4 years (in the 16th arrondissement that is, like we know it so well, a very vivacious and young neighborhood in Paris). I've done scientific studies in but I've decided to stop it all and become a florist three years ago. Flowers are a source of inspiration when I paint, draw or take pictures.

**What is your main activity as an artist ?  
How would you define it regarding your own person ?**

I'm a florist. I work in the Debaulieu house of creation for almost a year now. This job is

very demanding personally, psychologically but physically as well.

It's a passionate job... It's a bit cliché to say so, but it is very true !

### How, when, and why have you started your art ?

I felt the end of my masters and the beginning of my career in the pharmaceutical industry getting closer and I realised that I didn't want to do that. I was in a moment of my life where I really managed to make a difference between my ambitions and the ones my parents had for me... I've decided to finish my studies then to begin another training. A training that would be more « artistic » and « crafty » which is what fits me more. At that time I started following a lot of florists on Instagram and was getting interested in the flower. After discussing it with some florists, I've decided to give it a go and I applied to the Florists school of Paris for a three year training, three years ago.

### What is your creative process ? Can you tell us about it in a few words ?

I start by imagining a shape. I then choose the flowers that will help me creating this shape. My second criteria selection is the colour. It is my favorite part, because it determines the « mood » of my creations.

### What is your favorite flower, the one you prefer using ?

I don't have a favourite flower ! It's very difficult to be attached to one as a florist as we discover new flowers everyday!

Do you have any collaboration ideas with other type of artists/creators that could give another dimension to your art?

Oh yes. I try to touch all kinds of things through flowers, beyond the floral composition. It could be photography, illustrations, paintings, ceramic, landscaping, jewelry etc...

The list of artists/designers I'd love to associate with is very long !

Why did you choose to be an Arty Network Ambassador ?

For several reasons. I love supporting that kind of creations and I was given the occasion to do it more actively. I love all the more to help carrying projects that could help other designers in their development. It speaks to me and touches me personally in what I do.

What is the perspective of this project ?

What would you seek for your own creation/work ?

I'd love for the community aspect of this project to grow, this is what attracts me the most : exchanging, sharing, building with others. Thus, I hope I'll touch people with my art, now that I'm launching my business, with the help of Arty Network !

## JULIE

"(...)when she told me about the project [Arty Network], I was immediately hooked ! It is important to support each other as entrepreneurs and being able to belong to a community of artists. "

Could you introduce yourself in a few words?  
Where are you from ?

My name is Julie aka Junosaure and I have an immeasurable passion for houses, rooibos infusions and Wes Anderson movies ! I grew up in Troyes. I've completed a three and half years course in the Arts & Medias College in Caen (École supérieure des Arts et Médias), then I've continued my masters at the Plymouth College of Arts in the UK.

I live in Bordeaux since the start of the year !

What is your main activity as an artist ? How would you define it regarding your own person ?

I'm an illustrator and graphic designer and also a self-taught photographer. I've just finished my final year's internship and I'm just starting as a freelancer. It's a new challenge for me !

How, when, and why have you started your art ?

I've started photography and videography when I was just a teenager, it's my dad who initiated me. After my final year in high school, I looked for me, I was interested by so many different creative jobs that I no longer knew where to turn. Then I've completed an artistic prep in Paris, which gave me the opportunity to realise what I was truly passionate about : illustration and photography. I started writing short stories, drawing characters et I never stopped. I let photography aside but I'd love to manage combining the two techniques !

I get a lot of inspiration from things surrounding me, but the nature and the city are the two main themes that prefer. I absorb everything that I see and create around that.

Can you tell us how the idea of working with camera came to you ? How did it affect to drawing ?

As a matter of facts, I've always struggled to visualise my style, I've spent the last few years looking for it. I was just letting my mind wander on the page until I was truly satisfied by the result. I've practiced drawing a lot and watched the work of other artists that inspire me to get where I'm at today.

I've practiced drawing a lot and watched the work of other artists that inspire me to get where I'm at today.

Do you have any collaboration ideas with other type of artists/creators that could give another dimension to your art?

I've always loved videography, I'd love to animate my drawings on shootings, combine the real and my illustrations ! It would be awesome !

Why did you choose to be an Arty Network Ambassador ?

I've known Imane through Instagram for a few years now and when she told me about the project [Arty Network], I was immediately hooked ! It is important to support each other as entrepreneurs and being able to belong to a community of artists. .

What is the perspective of this project ?

What would you seek for your own creation/work ?

I think this project is full of great opportunities and meetings with other creators. As an illustrator who just started, it is a priority for me to create a more professional network if I want to achieve projects that match my personality and that have sense!

JOHANNA

"Becoming an Arty Network Ambassador allows me to be guided in this new adventure."

Could you introduce yourself in a few words ?  
What is your main activity as an artist ?  
How would you define it regarding your own person ?

My name is Johanna, I'm 24 and I'm currently living near Paris.

For now, I'd say that my activity is more like a hobby that allows me to flourish. Touching the wood, working with it and realising projects I've imagined exhilarates me.

My will to create wood boards came after. I was inspired by the American artist Aleksandra Zee (Oakland, CA). However, I

wanted to bring my personal touch by using different materials. How, when, and why have you started your art ?

**How, when, and why have you started what your art ?**

I've started working with wood and play with tools a year ago. I needed a piece of furniture to store my record player and my vinyls and I had in mind a precise idea of what I wanted it to look like. I've then drew some plans. Following the advices of my father (this great handyman) I had a look at the DIY store and I've started building. I was so pleased with the result that since then the ideas never stopped flowing.

**What is your creative process ? Can you tell us about it in a few words ?**

Usually my new boards ideas come at night when I'm supposed to sleep ! Once the idea is in my mind, I can't wait to start in this new project. Before I do, I make an initial plan but it happens that the final result looks slightly different. I decide on the moment. I look, above all, for harmony and symetry in my wood boards.

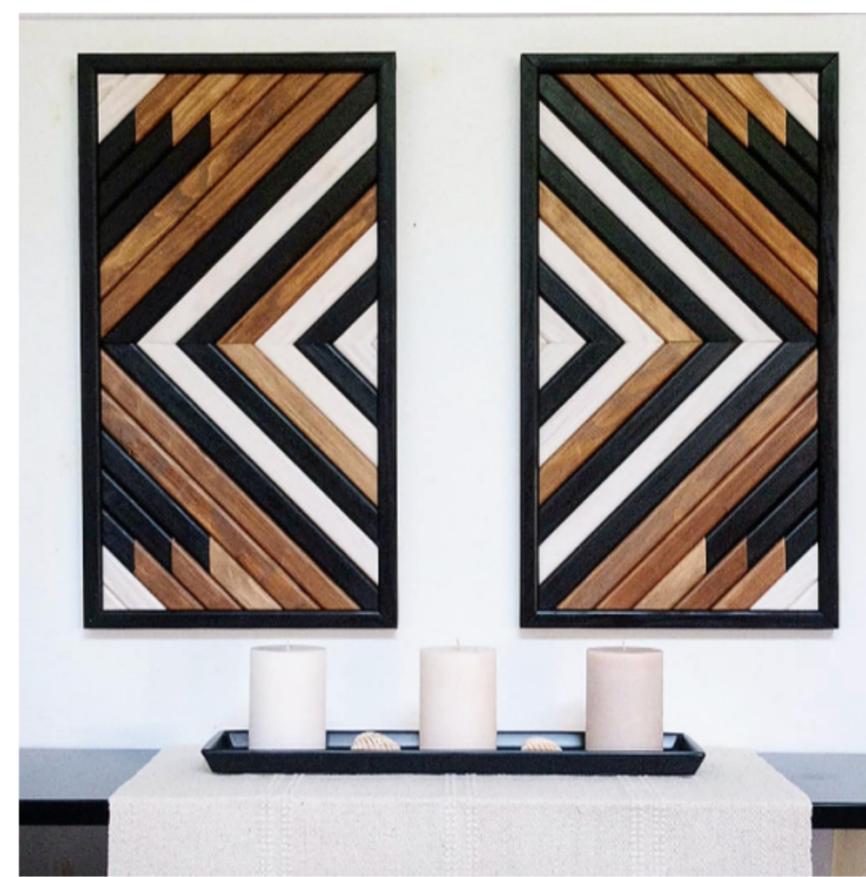

Can you tell us how the idea of working with wood came to you ? And in which forms do you work with wood ? Is it something you were able to make for a long time ?

While I wanted to create furniture by myself, I naturally turned to wood without really knowing it and without knowing the field of possibilities that was offered to me.

For the boards, I use planed fir wood in the form of profiled moulding (flat rods with rounded corners) to give it a bit of dimension. I work with them with my hand using my

dad's old miter saw. I particularly appreciate this moment of my project, when I hand saw meters and meters of wood. It makes me conscious of the amount of work I accomplished.

For the furniture conception, I lately tried the wood pallets recycling that needs a whole different work but that I find equally exciting.

Do you have any collaboration ideas with other type of artists/creators that could give another dimension to your art?

I'm really new to this practice, I would really like to learn more with other people that are more experienced, or be given advices or opinions from other artists to make my creations evolve and progress.

Why did you choose to be an Arty Network Ambassador ?

When I heard about Arty Network for the first time, I was conquered by the concept. The fact that I can promote my activity, sell my creations online while being part of a community of artists was something that really attracted my attention. Becoming an Arty Network Ambassador allows me to be guided in this new adventure.

What is the perspective of this project ?  
What would you seek for your own creation/work ?

This project could make my activity evolve and develop even though today it isn't my main job. It could make me grow as an artist as well.

## CARI

I'm a singer, songwriter, and performer from Houston, Texas. I now live with my partner and our dog Mollie in Belfast, Northern Ireland.

What is your main activity as an artist? How would you define it regarding your own person?

I wouldn't say I have a main activity as an artist. I make a living in the music industry in a variety of ways. While I attach my stage name- Cari Q to my original music, and tours, I also get hired for various other creative work. I write music and lyrics for other artists, and also do session vocal work. I also work as an editor for a few European artists whose native language isn't English.

How, when, and why have you started what your art?

I've been writing music for most of my life, but it didn't become my full time career until my early twenties. When I was a teenager, writing became a necessary form of catharsis. It gave me some control over what I was experiencing and allowed me to take ownership of the telling of my narrative.

**What is your creative process ? Can you tell us about it in a few words ?**

Lyrics have always been the easiest part of songwriting for me, so I usually start with music first. Sometimes a tune comes to me when I'm out taking a walk or on the bus coming home from work. Inevitably a repetitive phrase accompanies the melody and I can come home and build a full song out of this "hook". Other times song writing is more intentional. I'll pick up a guitar with the motivation to release an emotion or concept that I'm experiencing and interpreting. After I establish a format, I write the lyrics. They rarely come out in the right order, but they get there in the end.

**Can you talk to us about one of your favorite song you've written ? And what was the specific process of creation for that song ?**

"Kill me Twice" is my favorite song I've written, lyrically to date. I was in a particularly difficult part of my life and I expressed what was probably my most painful experience in the most beautiful words I could find. Art and music are all about making the unbearable, beautiful, and the intolerable, palatable. I wrote the music and the words at the same time. It took maybe 10 minutes tops. I started playing and the lyrics fell out.

**Do you have any collaboration ideas with other type of artists/creators that could give another dimension to your art?**

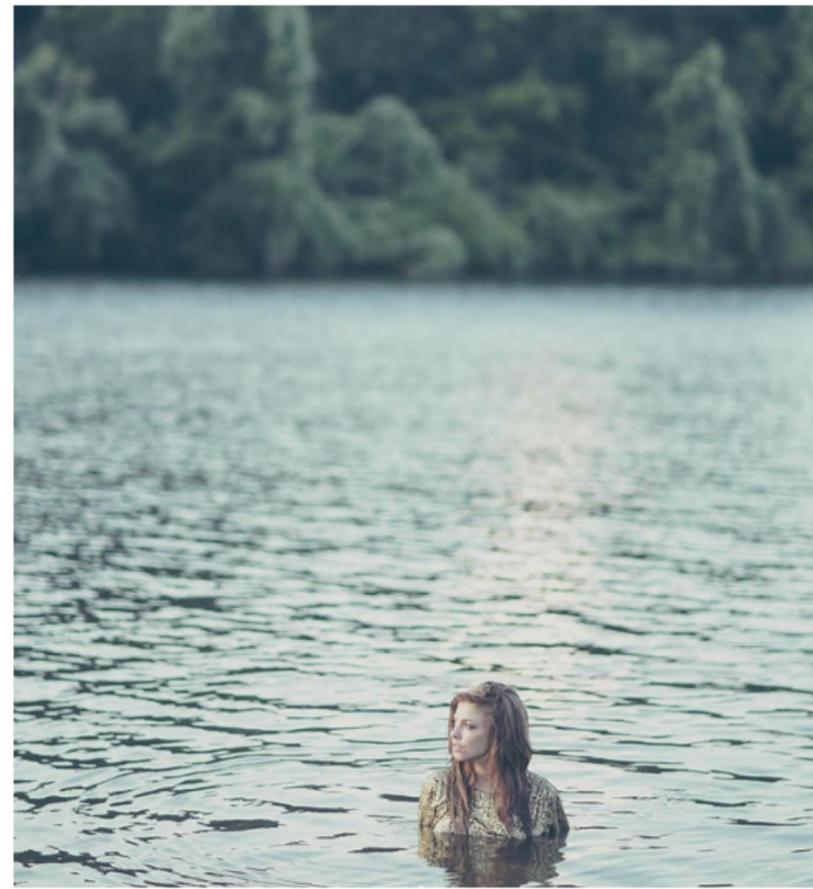

My favorite form of art to consume is photography. I would love to collaborate with an abstract photographer. The more avant guard the better! In the same vein I'm in love with artful videography, but there are so many elements that go into making film, that I might also consider the task daunting.

**Why did you choose to be an Arty Network Ambassador ?**

I believe that Arty Network provides necessary tools for artistic types. Many creatives, myself included, lack an intuitive business skill set needed to make their art successful. The website is a gloriously organized platform to sell my music, merch, promote my upcoming shows, and connect with other creative types. It's also an ethical company that sponsors various charities . That in and of itself is reason enough for me to be an ambassador.

**What is the perspective of this project ? What would you seek for your own creation/work ?**

At this stage of my career, although I love performing live, I've really zoned in on the writing side of my career. I would love to get to a place where I can make a living solely on songwriting.

## CONSTRUISONS ENSEMBLE LE MARIAGE QUI VOUS RESSEMBLE

*Vous comptez vous marier et vous êtes en plein préparatifs de votre mariage ? Vous avez plusieurs idées pour la décoration, et ne savez pas comment les structurer ? Vous avez choisi le thème de votre mariage, et souhaitez le rendre unique, en apportant votre touche personnelle ? Bienvenue vous êtes au bon endroit !*

## QUI SOMMES- NOUS ?

L'Instant Présent Event est une agence de wedding designer basée en région parisienne. Nous vous accompagnons à réaliser votre mariage à votre image, sereinement grâce à des outils clés en main : suivi personnalisé, harmonisation des couleurs, recherche de la décoration et du style, scénographie, choix des fleurs.

Notre petit plus : le mariage multiculturel et la diversité de nos mariés car pour nous, l'amour va au-delà des frontières. Chaque mariage diffère d'un pays, d'une religion, d'une coutume à une autre. Nous savons combien le respect des traditions et intégrer les divers aspects de vos cultures comptent. Grâce son expertise à l'étranger, l'Instant Présent est à votre écoute pour satisfaire et adapter vos besoins et rendre votre évènement unique.

Nous vous aidons à créer l'atmosphère idéale, qui vous correspond pour le mariage de vos rêves.

## NOS VALEURS

## PRESTATIONS

*Notre but à travers la scénographie, la décoration et l'art floral est de véhiculer des émotions et d'apporter de l'esthétisme à votre mariage. Plus qu'un décorateur nous proposons un service sur-mesure, chaque élément décoratif est soigneusement sélectionné pour vous aider à chaque étape de la conception de votre mariage.*

## NOS FORMULES

### FORMULE DELICATE

1/ Décoration de la cérémonie religieuse ou de la cérémonie laïque

Sélection sur-mesure des éléments décoratifs du lieu de la cérémonie.

2/ Décoration de tables

Visite technique du lieu de réception afin de créer un univers en adéquation avec le lieu de réception.

Agencement de l'espace et aménagement des tables de réception.
